## Why Information management

- A division in the Norwegian Defense Logistics organisation
- Ready and Available weapon systems
  - Logistic support
- Correct and aligned information for the weapon system
- The risk for information overflow

# Information - challenges

- Complex systems
- COTS
- Multiple vendors/contractor
- Several Software solutions involved
- Interoperability

# Co-existence

- Procuring the equipment
- Using the equipment
- Military operations
- Information
- The use of open standards
- Uniformity
- Scope of maneuvering

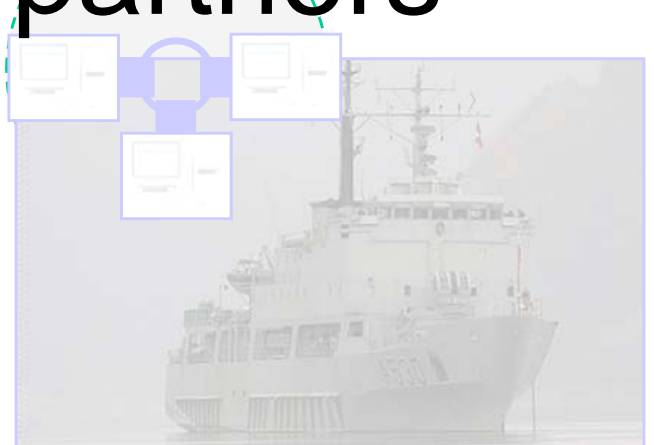

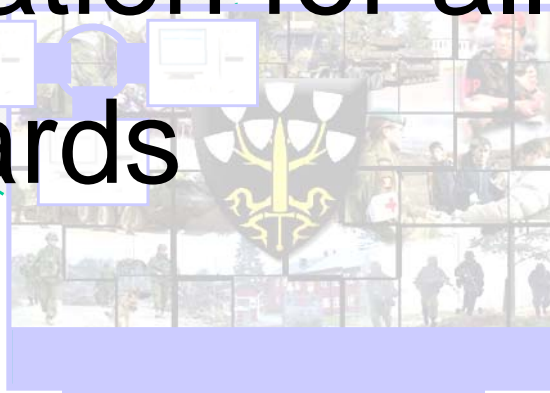

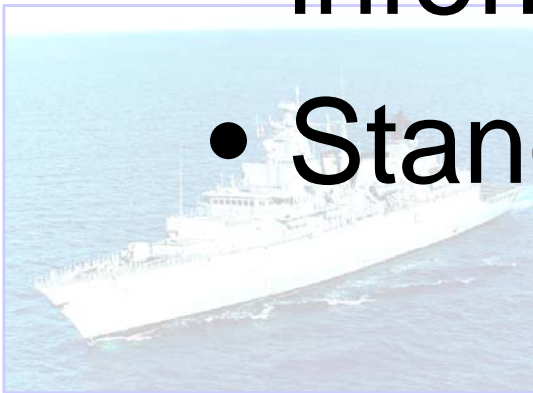

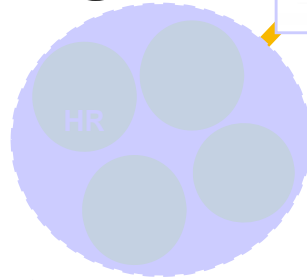

# Harmonization

- We need a complete view
- Relevant training
- Correct documentation
- Spares and maintenance procedures

# Integration

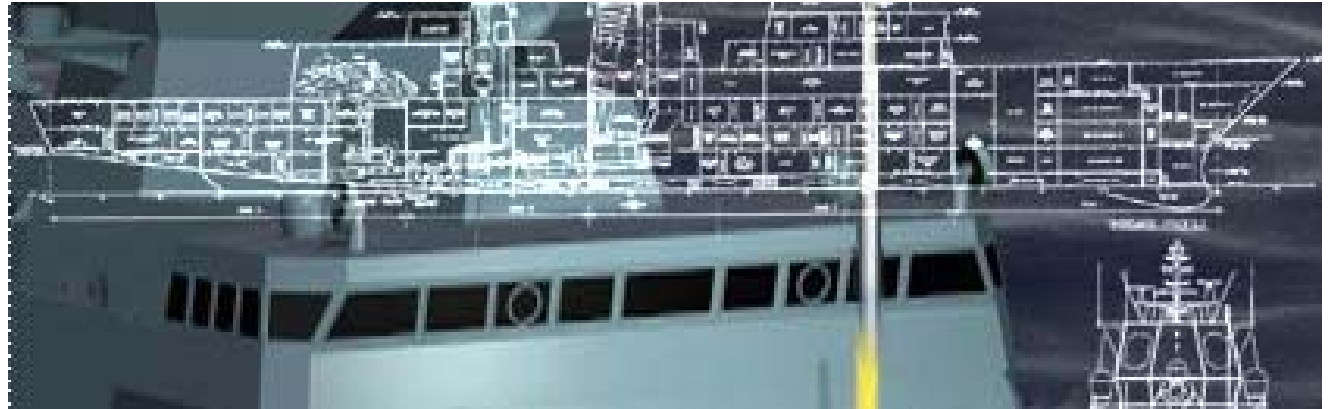

- Military equipment in joint combined operations
- Shared and available information for all partners
- Standards

## Our policy

- ISO 10303-239 – PLCS
- Scorm
- S1000D

- Will PLCS, S1000D and SCORM be the solution to our challenges?
